

The Saks Stores

There's a Time to Sacrifice, And Now's the Time.

For the balance of this week we're going to have one of our "STOCK-ADJUSTING SALES." We watch our stock carefully—constantly. What sells rapidly is no sooner in remnant than it goes to a special table. What moves slowly is promptly reduced. This is to be an offering of the too-small and too-large lots. It's a sale of quality—whatever else it may be. Buying in such enormous quantities as we do, it's not surprising that occasionally we should slip up in the selection of a pattern. The price at which you may take your choice now will easily conquer the prejudice of taste. These are all bargains of the first magnitude.

Men's Suits, worth from \$13.50 to **\$8.75**
\$18, for.....

All the too-small and too-large lots. They count up an immense variety of patterns—from Plain Black and Blue to the nobbiest Fancy Cassimeres and Cheviots. Because we make such an enormous cut, that's no shirking of responsibility. THEY'RE OUR SUITS—and we fully guarantee them to fit perfectly—to be strictly all wool—to be better values than you can find elsewhere at the regular prices.

They are mostly Single-Breasted Sacks—of some, all sizes—of others, only a few.

Boys' Suits, worth from \$5 to \$7.50, **\$3.85**
for.....

These are Long-Pants—for young men from 14 to 19 years. Like the men's—they're the last of the most popular lots—and the styles that have moved slower than our patience can tolerate. They are worthy of your confidence—for they are honest grades of wool and well made in every way. All sizes of some—only a few sizes of others. Look at them through the reduced price—\$3.85 for your choice.

Children's Suits, worth from \$3 to \$3.50, **\$1.89**
for.....

This is a sale that you must attend to get anything like a comprehensive idea of what advantage there is in it for you and your boys. Some lots we bought too heavily of—some that are broken in size all too soon. You choose as you please for \$1.89—Double-Breasted Suits, Reefer Suits, Brownies, and Sailors—in light and dark effects—all wool and full of solid worth. The smallest will fit the 3-year olds—and the largest 15.

Mens Pants, worth from \$4 to **\$2.95**
\$5, for.....

There are about 250 pairs of these too-large and too-small lots—and every pair we warrant worth its regular price. Really not an undesirable pattern among 'em, either. What if they're not exactly to your taste—remember, you're saving from one to two dollars—and more, too. If we've got your size—you'll be fitted perfectly. Some suitable for dress—others for business wear.

SPECIAL SALE OF

Crash Bicycle Pants.

You know enough about values to know that \$1.50 buys a good pair of Crash Bicycle Pants. That's what these are. Thoroughly shrunken before they were made up; reinforced seat, belt straps, and buttoned pockets. All sizes... **89c.**

1,000 Men's Straw Hats,

in the latest shapes, rough and plain braids, trimmed with plain and fancy colored silk bands—Hats that are worth up to \$1.50. Not old styles, but BRAND-NEW and UP TO DATE.

Choice of the lot. **95c.**

GOVERNOR GOING TO WASHINGTON

To Talk With the President as to the Colored Troops.

Governor Tyler has almost entirely recovered from his recent indisposition, and will leave this morning at 8:45 o'clock for Washington, whither he goes to see President McKinley with reference to the mustering in of the colored volunteers. The Governor, as has been stated, is in a quandary concerning these troops. They are all commanded by colored officers, and strong pressure is being brought to bear upon him to appoint white officers to command them. He does not think he is empowered under the Constitution to do this, and hence his visit to the President. He has also referred the matter to the Attorney-General, who will in a few days give him an opinion as to the constitutional question involved. Letters from several colored men asking permission to organize companies have been received.

Notice has been received at the Adjutant-General's office from the War Department of the discharge from the volunteer army of Quartermaster-Sergeant W. H. Church, of Company B, Fourth Regiment. No reason is assigned. The recruiting officers, whose duty it will be to fill up the ranks of the Virginia regiments, will be in Richmond within a few days to enlist those who desire to volunteer. The exact date of their arrival has not yet been fixed.

Major David D. Price, the quartermaster of the United States army at Richmond, returned from Lexington Tuesday evening, bringing with him his wife and child. The Major is at work settling the accounts of the government, and as soon as possible will join his regiment at Falls Church.

Allentown	11	24	.314

Richmond's ball team is now in first place in the Atlantic League race, and with the Allentown team to cope with during the remainder of this week, the chances are, she will keep it for awhile. The Bluebirds took the coveted position from Lancaster yesterday afternoon, when, at Broad-Street Park, they defeated Ward's hard-hitters. They did not have to make an effort to win; the game was practically presented to them.

In the outset, the Ward "healers" started off as though they proposed achieving a victory, but with Piggy Ward as an exemplar, they began in the second inning to accumulate errors. All kinds of ragged work was done, and errors were piled one upon another in quick succession. As a result, Richmond, having already made two runs, increased her score to eight, and the game was won.

NO EFFORT MADE.

From that time on the Lancasterians loitered about the diamond and made no effort to win. They converted the game into a farce and in this effort were very successfully aided by Umpire Kelly.

This official seemed to have a poor eye for the ball, and called balls and strikes in the most reckless manner. He roasted both sides, though, and Richmond owed him nothing for her victory.

West was in the box for Lancaster, and pitched a fairly good game. He was the only man on the Lancaster team who seemed to care a rap about the outcome of the contest (7) and he hit more freely than he should have been. The fielders behind him did not go after the ball, and hence, what should have been put outs had to go down against him as hits, because the rules do not provide for awarding an error to a player who should go after a ball but fails to do so.

LEEVER'S OFF DAY.

Leever was the artist who manipulated the sphere for Richmond, but for the listlessness of the visitors he would undoubtedly have lost his game. He did not seem to have his old-time speed, nor his multitudinous curves, and he did not fool the Lancasterians a little bit. They baited him at will and kept the Richmond outfield continually on the jump. Notwithstanding the fact that the Lancaster lads did not apparently try to win, they might have done so any how had it not been for the gilt-edged support given Leever.

There was little of interest in the game, and the details of the play can best be told by the score, which is appended:
